

Equipment Specifications

DIMENSIONS & WEIGHT

Without Cabinet – W757mm x D471mm x H837mm. Open hood – W757 x D624 x H1080mm

Gross Weight – 53kg

With Cabinet – W757 x D624 x H1757mm, Open hood/door – W757 x D655 x H2000mm.

Gross Weight 86kg

With Can Vendor – W757 x D618 x H890mm,

Open Can Vendor door – W857 x D1115 x H898mm,

Gross Weight 101kg (empty). Storage temperature 5°C approx

ELECTRICAL SUPPLY

The machine runs from a 230V 50HZ single-phase A.C. supply and is fitted with a 2m power cable terminated with a BS 1363 plug fused at 13A. This should be connected to a switched socket outlet installed to the latest version of the I.E.E. Wiring Regulations.

WATER SUPPLY

The machine should be situated within 1 metre of a drinking water supply from a rising main, terminated at a W.R.C. approved 15mm compression stoptap.

This water supply should comply with both:

- Statutory Instrument Number 1147 'Water England and Wales'.
- The Water Supply (Water Quality) Regulations 1989.

Water pressure at the stoptap must be within the limits of 0.2-10 bar.

SYSTEM INFORMATION

Sugar capacity 1kg

Available as Hot & Chilled or Hot only

Multiple payment systems available - Free vend, coins & token and cashless

The Connection is fitted with a water filter at the time of installation. This **must** be changed every 6 months and the customer will be charged at the current Kraft rate.
